Joe DiMaggio Children's Hospital
Pediatric Orthopedic Fellowship
Application

Research Requirements

We require at least one poster or podium ready research project to be completed during the year long fellowship, suitable for POSNA, AAOS, PRISM, or SRS.

There is ample clinical material for case reports, case series, technique papers, and a database for retrospective studies. We participate in an IRB. There is a dedicated research office that offerers some support institutionally.

Several of the faculty have projects that have been initiated that can be reasonably completed within a year.

Here is a sampling of peer-reviewed articles previously published by the faculty.
